## Letter to Parents of Pana Community Unit #8 School District

Dear Parents and Guardians

Children are the most precious cargo transported on our roads. Though school bus accidents are few in number, they do happen. For this reason, it is important to take extra steps to assure children's safety as they travel to and from school.

Fact:

Most School bus accidents take place when the child is entering, leaving or waiting for the bus.

Among children involved in the school-bus related injuries, children ages 4 – 7 are at the highest risk.

School buses are generally the safest ways to travel. However, injuries which occur when children are getting on or off the bus continue to be a serious problem. To protect your children from possible injury, we ask that you review these safety rules with them.

1. If something falls under or near the bus, tell the driver, never try to pick it up yourself.
2. Stay out of the street when waiting for the bus, wait in a safe place away from passing cars.
3. Wait quietly. Playing tag or running around could cause an accident.
4. Be sure that the safety lights on the bus are flashing before you get on or off the bus. The flashing lights tell the other drivers that the bus has stopped to pick up or drop off students.
5. Do not run across the street to greet anyone such as Mommy, Daddy, a pet or a friend.
6. When it is safe to cross the street, remember to cross in front of the bus.

We hope that you will help out at home by talking to your child about the importance of school bus safety.

If you or another adult are not able to wait at the bus stop, it is very important that you spend time practicing these rules with your child. Your help in teaching these rules is very important in making your child's school bus trip a safe one.

Thank you  
Ron McMillen, Transportation Director
